NEW LIGHT THROWN ON SHOOTING IN LARGO CANYON

Sam Truby at His Colorado Ranch Tells Story of Affair; New Mexico Sheriff With Ike Cox Who Shot to Kill.

DURANGO, Colo., Aug. 28.—A new light has been thrown upon the story of the shooting in Largo Canyon, where it was reported that Sheriff Dulmier of San Juan county, New Mexico, was held up by the Truby brothers, whom he was pursuing, but afterwards escaped. According to an interview given out by Sam Truby, who has been at home on his ranch near Elco, his two brothers, and a Mexican while on a pastoral journey were attacked from behind by Ike Cox and a party, of which Sheriff Dulmier was a member. The Cox, it will be remembered, was shot in some time ago, it was believed by one of the Trubies, and the shooting in Largo Canyon is only another chapter in the feud between Cox and the brothers.

In speaking of the affair Sam Truby said:

"Three days ago Dave and Henry Truby and Pete, the latter a half-breed Mexican, started out for Cola, N. M., to look at a bunch of cattle with the end in view of purchasing the same. They rode in a light swinging wagon, pulled by a work team, with a saddle horse tied behind the rig. A company had crossed the line into New Mexico and when at a point between Inca and Cedar Hill they first became aware of the fact that they were being followed, followed by a man who was known to them as being a friend of Ike Cox, the two having been seen

Their International Union Prosecutes Its Campaign to Conserve.

The volume containing the reports of the offices of the International Typographical Union for the fiscal year ending with May, 1911, is now in circulation.

The International Typographical Union has for years conducted a health campaign from its international headquarters, and working through local committees. In his report this year President Lynch has to say as to the progress of the campaign:

Your president has continued the agitation during the past year for better sanitary conditions in the workrooms where our members are compelled to labor. We have also continued the distribution of the *Health* pamphlet. As to sanitation and other workroom conditions, our local unions should continue to give these subjects attention. With the

movement against filthy and non-ventilated composing rooms there will be entire sympathy on the part of the general public, and no employer can afford to resist the demand for a change in working conditions that will guarantee health and comfort. As a matter of fact well-ventilated and scientifically arranged composing rooms are as good an investment as the latest improvement in typesetting machinery, or the newest and most up-to-date faces in type. The worker who is in good health and who is working amid pleasant surroundings is the best kind of a worker, for both mentally and physically he is equipped to produce the best that his art knows. Good printing means additional patronage for the printing office, and to a very great extent good printing requires artistic taste.

All of our local unions should have health committees, and these committees should be uniting in their efforts to improve sanitary conditions and other features in composing rooms requiring betterment. Whenever a condition exists that requires improvement, if the employer fails to make the improvements on request of the health committee, then the bad condition should be called to the attention of the local board of health.

The next time that Cox and the three others appeared on the scene they had been joined by two or three other men supposed to be Jim Taylor and Sheriff Dulmier. In the meantime Henry, Dave and Litz were trying under their gateway, they seeing that they were being pursued and they whished to avoid bloodshed, as at no time were they impressed that they were wanted by either of the lawmen. The only two shots that were fired were the two fired by Cox up to this time. They went on and the next advance that the Cox party made upon them they thought the job was up and therefore fled several rifle shots as a short, deserted outfit and escaped in the darkness. Dave and Henry Truby and Litz made their way back to Coloma and are now at the Truby ranch.

When all the foregoing occurred I was at my mother's ranch and knew nothing about it until they returned.
